

## **Maintenance Technician (Mechanical)**

Tiflex Limited (a leader in the field of Polymer Products) is seeking to recruit an enthusiastic Mechanical Technician to compliment the existing Maintenance and Projects Team based in Liskeard, Cornwall.

### JOB FUNCTION

To attend to the day-to-day mechanical engineering requirements of the site in order to maintain a high level of machine availability to the production department.

### REPORTING TO

Site Manager (Head of Maintenance)

### JOB REQUIREMENTS

The ideal candidate should have served a recognised apprenticeship and must have had previous experience in a heavy engineering industry.

- Applicants must be capable of working under pressure
- Have extensive knowledge of Pneumatic and Hydraulic systems and controls
- A broad knowledge of general engineering disciplines which will include fabrication, machining, welding skills, pipe and general fitting.

You must have a totally flexible working attitude, have confidence in your ability and be willing at times to work overtime (which may be routine for long periods and excessive for short periods) and/or unsociable hours. Your ability to work alone and/or as an integrated part of a team is essential, as is your ability to work in conjunction with other trades.

### HOURS

During your initial familiarisation you may be required to work some day work and an alternating two shift system to improve your training. After this initial period you may be required to work an alternating two shift system as your normal working week the hours of which are detailed below:

Week One.	0600 – 1300 0600 – 1500	Monday to Thursday Friday	(total 37 hours per week)
Week Two.	1300 – 2215	Monday to Thursday	(total 37 hours per week)

Hourly rate £10.53 - £13.21 depending on experience. An additional £1.74 per hour shift allowance is also paid.

Benefits include:

Stakeholder Pension Scheme with Company contribution (subject to eligibility)

Company sick pay scheme

Generous holiday entitlement
